

TA Session Notes (neat(er) edition)

Sep 8

- class
 ↓ ↓
vars func } In the same place

∈ object
∈ class
 ↳ unique

{static}

visible everywhere

same as C

- public static void main (String[] args) {
 // stuff
}

↑ like (int argc,
char* argv[])

- Running a file

\$ javac File1.java ... FileN.java

\$ java File1 ... FileN

↑ only one should have main()

- Installing Java

Oracle

OpenJDK

Download Java 8

Set PATH, JAVA-HOME
